

**A Message from the
SCSD #1 Food Services
Department**

The Food Services Department at Sheridan County School District #1 places the highest priority on providing our students, staff and community with top level services and products.

We want our staff to feel that they can order lunch from us and get a healthy, fresh meal with greater options that can be found in the cafes.

All proceeds from this program serves to reduce the food program costs and, in turn, the burden on the District's general fund.

We appreciate your business and commit to serving our staff and students with diligence and pride.
