

*Thank you, for your help last summer our BHE Garden was a wonderful success.*

*Big Horn "Rams Harvest" Will Need Your Help next summer*

Stay tuned to for summer 2021 sign-ups next spring. We will be needing spring clean-up, planting days, and summer maintenance.

The next summer will be a great time to have your family out of the house and into the garden! Contact Caroline Houck if you are interested in starting seeds at home that can be transplanted into the school garden or helping with the garden next summer.
